

PIONEER

WASTEQUIP - PIONEER COVER-ALL TUFF TAPPER HR1500, ELECTRIC

12 volt right angle direct drive motor is positioned on the roller assembly

HR1500E covers containers in just seconds

Fixed gantry covers standard roll-off containers which are from 8' to 16'

Tarp arm movement operates quietly

2-way ground level electric switch powers tarp for cover/uncover-functions. Tarping from this position is safer for your people

HR1500E tarping system is designed for single axle trucks and is relatively simple to install

Steady tarp arm movement is assisted with powerful torsion springs

Pioneer Cover-All Tuff-Tarper HR1500E Electric

Electric tarping system for single axle hook lift trucks

The **HR1500E Tuff-Tarper** covers fixed height roll-off containers from 8' to 16' long. This system is powered by a 12-volt direct-drive right angle electric gear motor which provides steady, quiet movement. The roller assembly is mounted on top of a stationary gantry. As the tarp is deployed to cover the load, the pivot arm movement is assisted by reverse-wound torsion springs. Heavy-duty steel tubing pivot arms are standard. Reinforced aluminum arms are also available.

Heavy duty side mounted pivot arms are standard. They are made of 1 5/8" steel tubing and are unbreakable. Integral screws are designed for quick, easy arm replacement ▼

2-way electrical switch powers the tarp system's cover/uncover movement

Heavy duty, reverse-wound torsion springs are standard

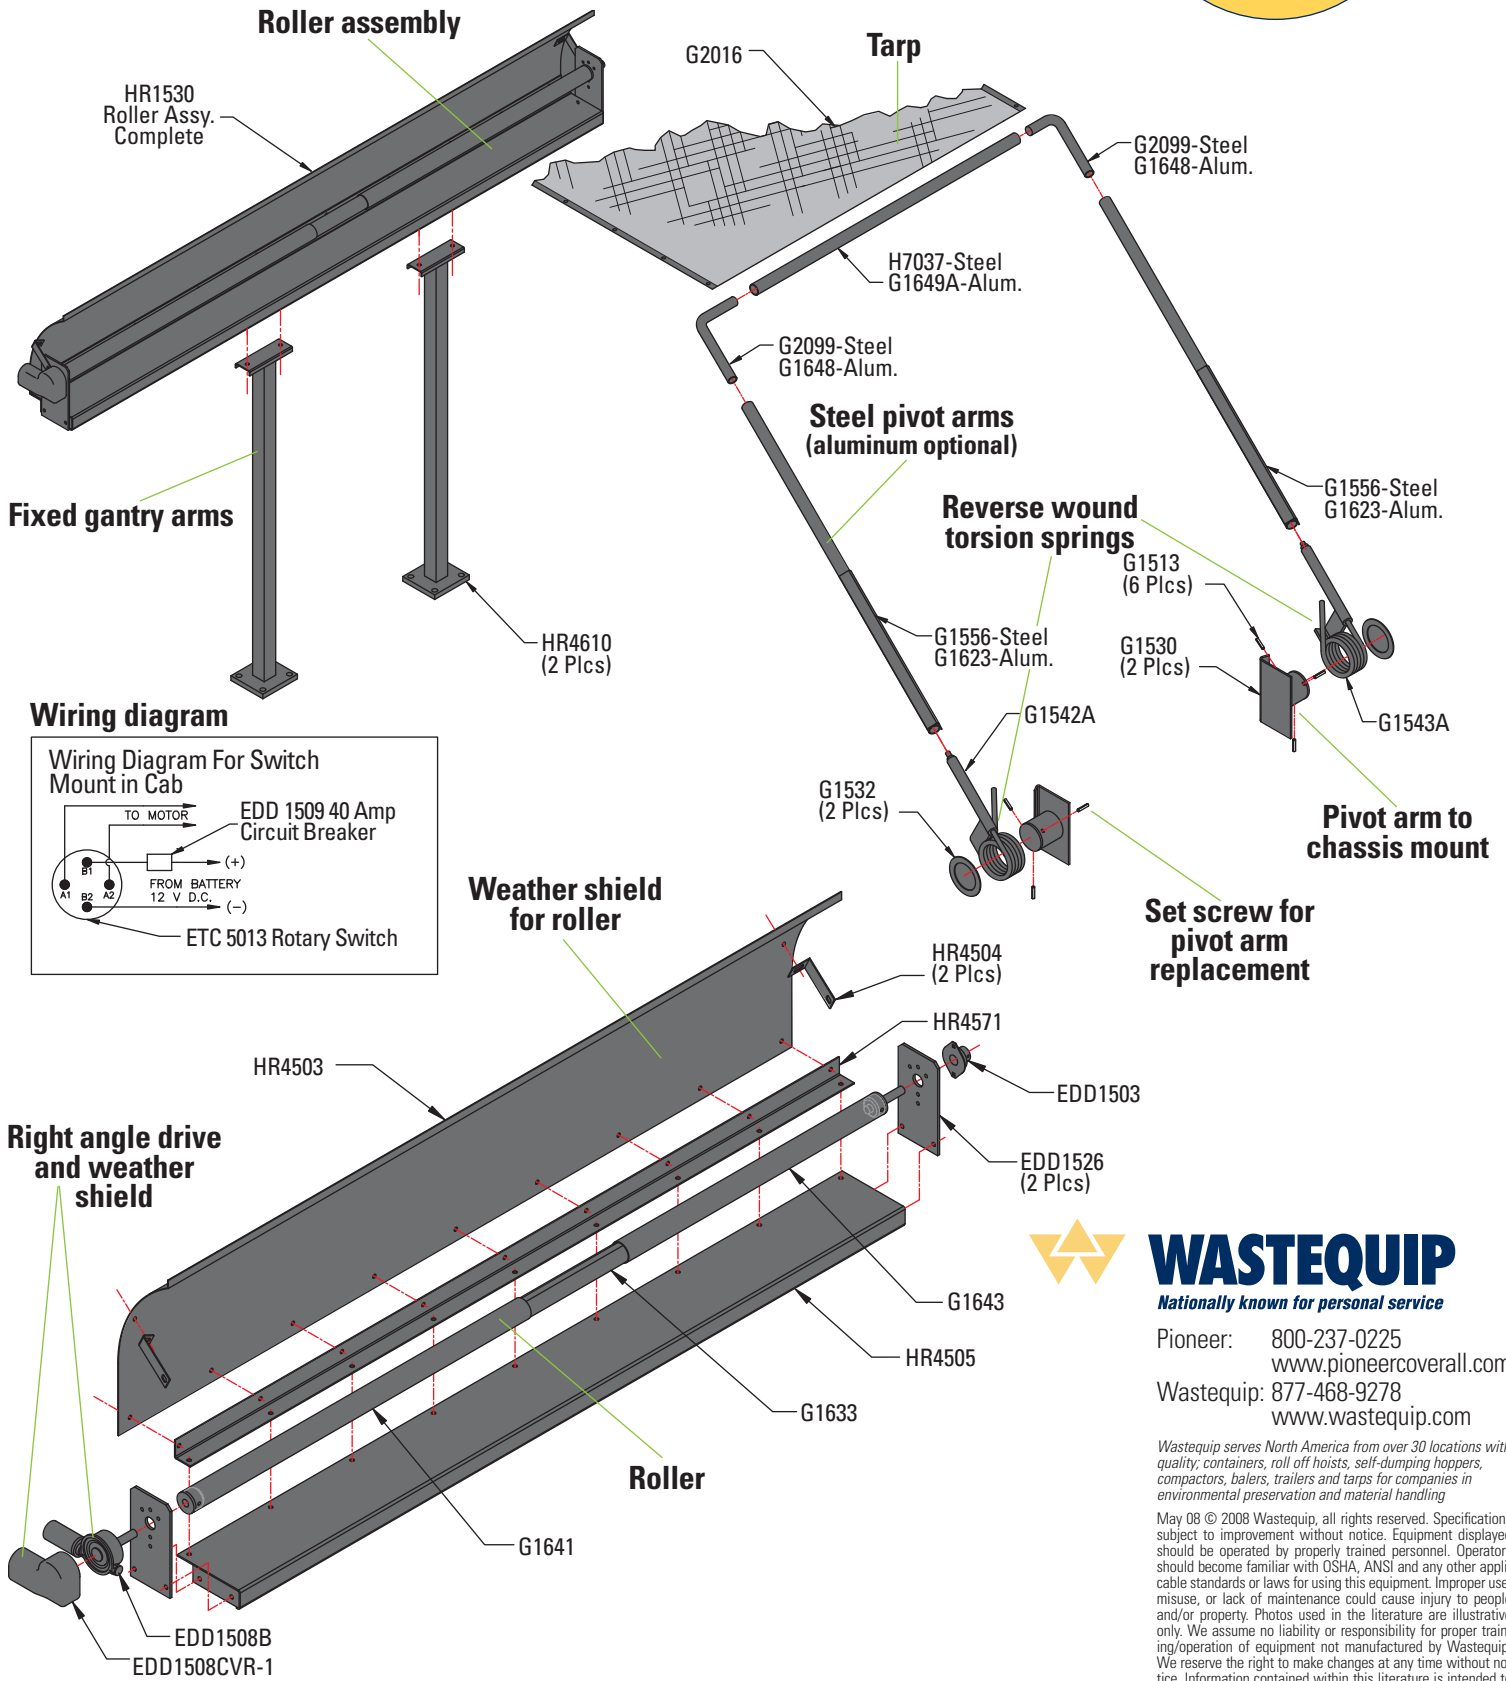

Fixed length roll rest gantry is powered by a 12 volt right angle drive motor

Optional heavy duty side mounted extruded aluminum pivot arms have a thick 3 1/8" profile for rigidity and strength. Set screws simplify arm replacement
